ColePak
INC

INTERIOR PACKAGING SPECIALISTS

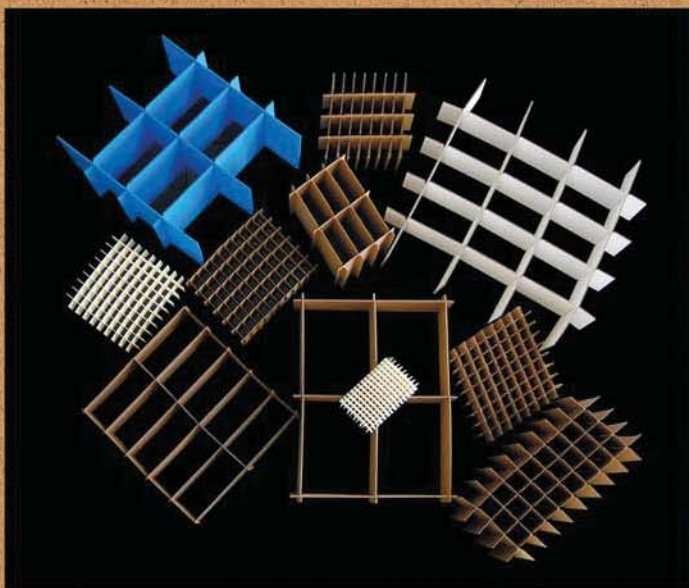

- Save time and money with Colepak custom partitions
- Meet your deadlines – we manufacture every product on site
- Gain flexibility with Colepak's expansive warehousing facilities

"Never worry about partitions again."

COLEPAK'S PHILOSOPHY

Colepak has specialized in interior packaging since 1987. During that time, our philosophy has evolved into a comprehensive strategy that puts our commitment to customer service into action every day.

In order to support this philosophy, Colepak continually invests time and resources into tooling, facilities and people. Additionally, we seek to partner with our clients who realize benefits in savings, delivery and product optimization. With Colepak as your interior packaging specialist, you will never need to worry about partitions again.

Any shape, size, configuration and material.

Colepak is one of the leading partition manufacturers in the country. We manufacture partitions, pads and die-cuts from chipboard, corrugated and plastic materials.

Every Colepak partition is custom designed and manufactured to meet stringent specifications. We can design a partition for nearly any product. Whether you need the value of chipboard, the stacking strength of corrugated, or the durability of plastic, Colepak can meet and exceed your needs. We serve a variety of industries including:

- Automotive
- Plastic Molding
- Pharmaceutical
- Diecast parts
- Electronics
- Precision parts
- Metalworking
- Food service
- Glass & Ceramic
- Cosmetic
- Chemical
- Medical
- Hardware

“Colepak’s ‘Smart Tooling’ guarantees 7 day delivery.”

THE COLEPAK SYSTEM

Optimum die and assembly flexibility. Auto. assembly handles up to 60" x 50" x 20"

Problem solving

The Colepak system is built upon progressive thinking. We've adapted our manufacturing facility to accommodate solution-driven ideas.

- **Colepak is committed to personal communication** with its customers. Our knowledgeable and courteous customer service representatives answer all incoming calls because we know that every call is important.

- **We turn all quotations in 24 hours or less.**

- **How about new product design and development?** Colepak is experienced and capable. We excel at finding economical solutions and work toward progressive improvements.

- **We can provide samples in 48 hours** and often produce small orders for test shipments at run-rate prices.

- **Expect the ultimate in flexibility on our plant floor.** Both staff and tooling is optimized for quick turn-around and efficiency. Our manpower is cross-trained on all equipment and in all processes. Scheduling flexibility is a reality with the Colepak system.

- **Colepak's machinery is designed to our specifications.** That's why we call it our 'Smart Tooling'. Colepak's equipment has been built to support maximum production flexibility. For example, we can produce fiber or chipboard partitions up to 50" x 50" x 24" without a die change.

- **100% of our manufacturing** is done in our spacious, modern facility. Because we guarantee 7-day delivery, we simply cannot rely on anyone else!

Specialized coatings save packaging costs by eliminating bagging, and provides the very best Class A surface protection.

"Progressive partition solutions."
